Thank you to everyone that attended our Children's University information event - we hope that you will use this portal to capture all of the additional activities that your child participates in - we hope to see more children at the graduation event in the Summer term. Thank you to Louise Chalkley for facilitating.

It has been yet another busy week in school with a Playdough Party for Reception children and parents as well as Y1 settling down to their full timetable of learning. Take a look at their learning pages!

We also completed a practice fire drill this week which the children responded to with our school values and behaviour expectations in mind - well done!

Have a wonderful weekend everyone.

## Year 1

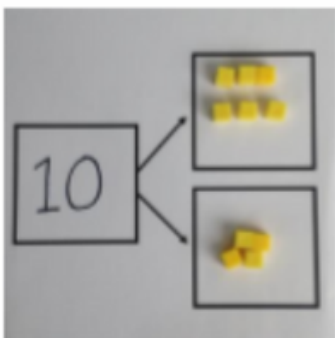

### Maths - Part Whole Model

This week the children have been exploring how to split numbers. They have been finding out about the 'Part-Whole Model'.

This model begins to develop the understanding of the commutativity of addition, as children become aware that the parts will make the whole in any order.

Take a look at our Y1 Calculation Document on our website. This document takes you through the progression of skills in Maths and provides examples of how your children are taught to carry out operations in Maths.

$$\begin{aligned} 10 &= 6 + 4 \\ 10 - 6 &= 4 \\ 10 - 4 &= 6 \\ 10 &= 4 + 6 \end{aligned}$$

Please can parents/families consider where you are parking on Sandy Road and not park on double yellow lines. This is for the safety of all of our families and most importantly, our children. The car park is available for your use at morning and collection times. In addition, residents have been in touch to respectfully request that no-one parks in front of their electric gates and/or driveways along Sandy Road. Please respect everyone's homes.
